Employment Ambitions Realized

“Green Valley’s Employment Specialist worked with me to locate a position similar to my former position. I was able to put my accounting skills to use because they identified assistive technologies that allowed me to perform complex ledger work for a local church. I am thankful for Green Valley’s help.”

Green Valley's Employment Specialists Personalize the Employment Process for the Job Candidate and the Employer

"A couple of years ago I was very depressed about my future and ability to provide for my family due to post traumatic stress disorder. Green Valley's team of Employment Specialists and Production Department provided me with a new outlook on life and my ability to be a productive husband and father. Through their help I was able to improve my self-image and esteem which motivated me to obtain part-time employment that eventually led to my current position as an instructor for a national company. Green Valley's Employment Services helped me in not only getting a job but in resurrecting my career."

Ross Nelson, Regional Instructor –Service Master
